ABOUT ME

B.Tech Computer Science (AI&ML) student with knowledge of Python, Java, JavaScript, and OpenCV. Experience in computer vision, web development, and automation through academic and personal projects. Seeking an internship or entry-level role in software development to apply technical skills in a practical environment.

EDUCATION

SR Group of Management and Technology (AKTU)

2024 - Present

Class 12 (CBSE) - Mathematics

72.4%

Class 10 (CBSE) - Science

68.8%

SKILLS

- Programming : Python, Java, JavaScript
- Web Development : HTML, CSS, Basic Frontend Development
- Computer Vision : OpenCV, Image Processing
- AI/ML : Machine Learning Basics, AI-based Projects , Tensor Flow
- Tools & Technologies : Git, GitHub, Linux
- Concepts : Data Structures & Algorithms (Basic), OOPs

PROJECTS

Invisible Cloak

- Developed a real-time invisibility effect system using Python and OpenCV.

AI Air Writing System

- Built a gesture-based air writing application using hand tracking.

Calculator Web Application

- Designed and developed a responsive calculator using HTML, CSS, and JavaScript.

STRENGTHS

- Problem-solving mindset demonstrated through multiple real-time projects (AI, Web, CV).
- Strong collaboration and communication skills gained through team-based development.
- Fast learner with ability to quickly grasp new tools and frameworks.
